The underlying cause of the midair collapse remained undetermined. Commander H. V. Wiley and others who came through safely, revealed there had been a sudden lurch at the outset, after which the great sky cruiser soared upward, out of control, then settled haphazardly to a grave in the deep.

"Court of inquiry consisting of Rear Admiral Orin C. Murfin, Captain W. R. Van Auken, Captain H. K. Shoemaker as members, and Commander T. A. Gatch, judge advocate, is being ordered to convene on board U. S. S. Tennessee 9:30 a. m. Thursday, 14 February, to inquire into the loss of the U. S. S. Macon," said an official order.

The loss of the \$2,450,000 Macon left the American navy without a fighting dirigible, Germany's Graf Zeppelin, slightly smaller than the Macon, thus became sovereign of the skies.

Measure Creating Radio-Equipped Force Prohibits General Camp From Serving as Head.

By a vote of 109 to 45 the house of representatives Wednesday passed the bill creating a radio-equipped highway patrol.

The measure, which carries with it a drivers' license law fixing the license fee at 50 cents, puts the patrol directly under the governor but prohibits the appointment of the adjutant general as superintendent, a provision which Governor Talmadge favored be cause of his desire to place Adjutant General Lindley W. Camp at the head of the department in addition to his other duties. .

Whether or not Governor Talmadge will sign the bill with the adjutant general barred from appointment as superintendent could not be learned wednesday night. The governor has let it be known that he believes the superintendent should be a man of General Camp's type but whether he favors anyone other than Camp is not known. General Camp has stated that he would not be willing to relinquish his present post to accept the superintendency of the patrol.

Representatives C. E. Sutton, of Wilkes county; J. J. Flynt, of Spalding county, and Roy V. Harris, of Richmond county, sponsors of the patrol bill, said that the drivers' license clause would raise about \$350,000 to \$400,000. If necessary all of this will be used for the patrol. If there is a balance it is to go into the general treasury.

BY JOHN FERRIS.

FLEMINGTON, N. J., Feb. 13.—(AP)—A solemn mandate-death in the electric chair for the kidnap-murder of the infant Charles A. Lindbergh Jr.—was read to Bruno Richard Hauptmann by his Jersey jury and his judge tonight.

Pale and erect, he heard the sentence of the jury that, 'We find the defendant guilty of murder in the first degree," and he swayed almost imperceptibly as Justice Thomas W. Trenchard sentenced him to die in the electric chair at Trenton penitentiary, "the week beginning Monday, the 18th day of March."

But he crouched at midnight on the edge of the cot in his guarded cell and wept.

DERMANY TO ASK

The bill provides for 179 men, no more than three of whom may come from one county. The superintendent's salary is fixed at \$3,000 a year and the patrol will have one captain at \$2,400 a year and lieutenants at \$2,000 a year.

The fight for passage of the bill was led by the sponsers of the measure with Representative H. B. Edwards, of Lowndes county, leading the opposition. Edwards turning against the measure after the house adopted the amendment of Representative Wilmer D. Shortly after the jury climaxed 32 days of tragic, dramatic testimony and frenzied pleading, with its verdict. Edward J. Reilly, big chief of the defense counsel, announced an appeal would be carried "to the highest court of the country, the United States supreme court, if necessary." "We believe we shall be able to secure an ultimate reversal of the judgment," Reilly said.

The first higher court to pass on the appeal is expected to be the court of errors and appeals of the state of New Jersey, and the case probably will not reach that tribunal before the latter part of May.

Colonel Lindbergh had left the courtroom early in the afternoon and when New Jersey authorities telephoned the home of his mother-in-law at Englewood, they were informed that the household had learned of the verdict from broadcasts.

FOR HARVARD SCHOOL FERTILIZER RATES

Georgia Freight Slash Ordered by Board Is Effective March 15.

The Georgia public service commis ion Wednesday issued an order reducing railroad freight rates on intrastate shipments of fertilizer and fertilizer materials from 18 to 21 per cent. The order is effective March 15.

Vice Chairman George Goode, of the ommission, said that the new rates would be effective on fertilizer shipped for spring use and that the commis-sion estimated that the saving to ship-pers would be approximately \$300,-000 yearly.

Nearly a year ago the commission ordered fertilizer rates reduced about 27 per cent, but the railroads went into court and obtained an injunction. "We have studied the whole situation anew and find that the new rates are fair and just and reasonable,"

It was learned that the railroads will not ask the courts to set aside the will not ask the courts to set aside the new rates, planning to carry their appeal against them to the interstate commerce commission, where a hearing cannot be had for six months or more, thereby assuring the farmers of the state of the benefits of the new rates at least for this year.

Simplicity was the rule of her childhood, decreed by her father. She was privately tutored, mostly at the vast Duke farms near Somerville, N. J. In summers she lived quietly at the Newport place, Rough Point. Part of every year she has passed at Lynnewood, a retreat near Myers Park, North Carolina.

Only in the last two years or so has she frequented night clubs and society's bright spots. Then, more often than not, she was squired by her half-brother.

Court Keeps Silence On Gold Decision

WASHINGTON, Feb. 13 .- (P)-Again today, the supreme court folowed its regular schedule listening to arguments on pending cases, giving no clue as to when the dicision in the gold cases could be expected. The usual 4:30 p. m. adjournment disproved rumors of an announcement

The expectation in best informed circles is that the decision may be postponed until March 4, with a possibility, however, of its being delivered next Monday.

How Many Dimes Can YOU Give?

Lewis Gordon, Treasurer, Zoo Housing Fund, Citizens & Southern National Bank.

I inclose the value of dimes as my contribution to the fund of 150,000 dimes being donated to provide quarters for the Candler Zoo when added to the zoo

(Clip this coupon, attach your contribution and send it to Mr. Gordon, or take it to Window Five, at the Citizens & Southern National Bank on Marietta street. Thank you).

State House Lauds Zoo Drive And Joins 100 Per Cent Club

gave its august approval to the campaign to collect 150,000 dimes so that proper housing may be constructed at Grant Park for the great collection of wild animals and rare birds which Asa G. Candler has so generously donated to the city to be added to the municipal zoo already at the park.

Mr. Candler, in offering his entire private zoological collection, valued at \$50,000 and said to be the finest privately owned zoo in the country, to the city as a free gift, stipulated that proper quarters to house the animals should be constructed at Grant Park.

Mayor Key accepted the gift with this proviso, but asked that the needed money for this work, \$15,000, be voluntarily subscribed by all interested in the zoo. Inasmuch as the institution is of special appeal to children, the drive was based upon dime contributions and the three Atlanta nwspapers undertook to sponsor a campaign for 150,000 dimes.

The resolutions adopted in the house Wednesday voice appreciation of Mr. Candler's gift and point out that the members are part-time residents of Atlanta, anyway, and that the zoo is of high educational value and interest to children from all parts of the state when they visit Atlanta.

The city board of education on Tues-day adopted a resolution suggesting that receptacles be placed in every classroom in the city and the children, who are the chief beneficiaries of the movement, be invited to give a dime apiece in so far as they can spare the money. No child, it was specified, is to be embarrassed who cannot give.

Film To Be Shown On Saturday morning, at 10 o'clock, Frank Buck's great picture of wild animal life in Africa, "Wild Cargo," will be the feature of a special matinee at the Fox theater, all proceeds going to the zoo fund. Admission will be one dime, and in addition to the feature there will be four of the funniest cartoon comedies of recent months. The hour and day have been set at a time when there will be no interference with school work and it is expected that the 5,000 capacity of the Fox will be taxed to care for the crowd.

From 9 o'clock Friday night to 1 o'clock Saturday morning, there will be a special zoo benefit dance at the Hurst Dancing school, corner Peachtree and North avenue. George I. Medical Discovery Now Bringing Almost Instant Relief to Millions

REMEMBER DIRECTIONS IN PICTURES

1. Take 2 BAYER Aspirin Tablets.
Make sure you get the BAYER
Tablets you ask for.

THE simple method pictured here is the way many doctors now treat colds to relieve the aches and pains colds bring with them!

You can relieve nearly any cold you get by taking BAYER Aspirin, drinking plenty of water; and, if throat is sore, gargling with BAYER Aspirin Tablets stirred in water.

This is recognized as a remarkably safe, sure, QUICK way. For it will relieve an ordinary cold almost as fast as you caught it.

Ask your doctor about this. And when you buy, be sure that you get the real BAYER Aspirin Tablets. They dissolve or disintegrate almost instantly. And thus work almost instantly when you take them. And in a gargle, Genuine Bayer Aspirin Tablets disintegrate with speed and completeness, leaving no irritating particles or grit

a bond issue is floated for the auditorium.

At the same time the Atlanta Junior Chamber of Commerce passed resolutions indorsing the proposal to buy the Shrine mosque and Fox theater for use as an auditorium, and A. L. Belle Isle, president of the Atlanta Convention bureau and one of the sponsors of the move, issued a statisfied statement expecting that without

sponsors of the move, issued a statistical statement asserting that within the last 10 years only one convention of 2.979 held here brought more than 5,000 delegates to the city.

"Federal aid for an auditorium or any other major public improvement in Atlanta appears doomed under the present state prohibitions." Gilliam said. "If the legislature changes the law, we may be able to procure funds law, we may be able to procure funds for certain improvements, but that ap-pears exceedingly unlikely, especially in view of the attitude of the governor to prevent any additional levy for governmental costs on citizens of

Georgia.
"I feel that the purchase of the mosque and Fox theater under the offer as made, coupled with the fact that it will be a self-liquidating project and will not cost the taxpayers anything, is a happy solution of the auditorium question. The city must auditorium question. The city must have additional auditorium facilities This is an unusual opportunity to ac quire them for nothing—a thing which has never been offered to the city be fore and probably may never be of-fered again."

The resolution of the Junior Cham-

ber asserted that we do "hereby in-dorse the movement to purchase the auditorium, believing the same to be a forward step in the civic life of

Atlanta."

Belle Isle pointed out that of the 2,979 conventions held in Atlanta in the last 10 years, 2,766 had less than 500 delegates; 138 had from 500 to 1,000 delegates; 133 nat from 3.00 to 1,000 to 2,000; five from 2,000 to 3.000;16 from 3.000 to 4,000; three from 4,000 to 5,000 and only one had more than 5,000. The main auditorium of the Fox theater seats 5,100, and other halls in the building seat from 500 to 1,500 each.

News Behind the News

EXPEDIENCY WASHINGTON, Feb. 13 .- Two dressed-up formal statements were all that came out publicly from President Roosevelt's recent meeting with the labor leaders.

They were merely for show-window purposes. William Green, president of the A. F. of L., compressed his grievances against the auto code into 1,500 words and sugared them with a broad promise of co-operation. Mr. Roosevelt had heard in advance about the Green statement and said: "I've got one, too. Let's exchange." He sang his prepared praises of labor objectives in 500 words. It made the gathering quite a sociable affair. But that is not all that happened.

What was not given out was Mr. Roosevelt's private explanation of why he renewed the objectionable (to labor) auto code for four months more. He said the strong production of autos is the main driving force behind the encouraging industrial activity now under way, and he did not care or dare to interfere with it

This reason had never been mentioned before, but it is sound, and it made an impression on the labor leaders. Auto production is now at peak. During the past 60 days it has brought improvement in steel, glass, rubber and all its related industries. In four months more, this situation will have passed.

BOARDS Another thing Mr. Roosevelt let the labor leaders in on privately was his view about NRA. He did not tell them what he was going to do, but did say something like this: "The NRA is creaking. You know it and I know it, because we can hear the squeaks. We are going to take the squeaks out of You know it and I know it, because we

The president did not directly say so, but he is supposed to have lost patience with the five-man board control over NRA, and in fact with all board control, including the proposed relief board idea. He leans toward a plan placing one man at the top of the NRA and at the top of the new relief set-up, and then instituting

boards under these top men.

It is likely that Mr. Roosevelt has come to this view because of all the grief unloaded in his lap by boards (particularly NRA recently) unable to agree. He cannot spend all his the settling the differences of temperamental boards. A top man could settle them, with the president acting as a court of final appeal in the im

MYSTERIES There are many mysteries in the current industrial revival. No one seems to know, for instance, what is causing steel to be operating at 55 per cent of capacity. Autos are responsible for perhaps 20 per cent of production, but that does not account for the whole improvement. The railroads are not taking any large amounts. Steel experts here are puzzled, So are railroad men. Car loadings were up 10 per cent last week, but no one knows why. Autos furnish a slight excuse for this also, but do not explain the general improvement in all classes

The mystery is further deepened by the fact that middlemen do not seem to be stocking up. Retail business has not been doing

There may be the germ of something important in the sheer lack of explanations. Nobody was able to explain the drop while it was going on. Perhaps forces are at work which are greater than those which show up in economic charts. There may be such a thing as a relentless force of economic nature. You can tell

OUTLOOK In view of the evidence that unidentified economic agents are at work, the opinion of the experts about the outlook may not be worth much. For whatever it is worth, it is that February will be a good month and March will also be unexpectedly good. After that they know not.

EMPIRES It looks as if Mussolini has been reading the Japanese theories of empire building by diplomatic and warlike aggression. The diplomatic prophets here say he is going to absorb the black African kingdom of Abyssinia in much the same way that the Japanese have devoured Manchukuo. This is what they see behind Signor Mussolini's action in calling out Italy's machines of war.

It seems Mussolini has been restraining his appetite for Abyssinia because he was afraid France might object. A few Abyssinian tribesmen fixed that by going on a rampage and killing a French Some Italian troops also are supposed to have been molested by people dressed as Abyssinians.

This may all be on the level, but an Abyssinian shooting a Frenchman or an Italian is something like a dog biting a man. Dogs usually appreciate the odds are against them. At any rate, the betting here is 10 to 1 that Abyssinia will wind up in the Italian doghouse, under chain.

Last week a merchant in the village nearest to ours finished building new store. It isn't a large or imposing structure, but it has one unique distinction. Milton Sees Path of F. D. R. Conducted at Emory As Away From Various Isms

Noted Chattanooga Historian Flails Efforts To Turn Nation Back Toward Old Order.

By JULIAN HARRIS

George Fort Milton, editor of the Chattanooga News and a historian of note, in his address on "Duress or Consent," at the Wednesday evening session of the Emory institute of citizenship, asserted with enthusiasm that the direction of the New Deal as charted by President Roosevelt was the one path which would not lead

of a scism or communism.

Mr. Milton praised President Roosevelt, who, he said, possesses an intelligence of the heart which is comparable to Lincoln's ability to understand public feeling and channel it along the lines of nationally useful policy. Since 1932, said the speaker, "Roosevelt has shown an increasing capacity for reading the secret heart and hopes of our people. To this he adds a willingness to be experimental

Mr. Fort was outspoken in his belief that if the old order obtained control, that a revolution would follow with no less bloodshed than those which are now a part of history. The old order represented by the Harding and Coolidge regimes is outworn and forever discarded because the economic condition for which it was planned. condition for which it was planned

Mood of America Unchanged.

It was clear that Mr. Milton believes that despite the changes and trends in government in other tions, the American mood is changed. In brief, the thought expressed by Locke a century before it appeared in our own declaration of independence, is the keystone of our political philosophy—"governments derive their just powers from the consent of the consent." just powers from the con-le governed." If this fundasent of the governed. mental dictum is not to be reduced mental dictum is not to be reduced to mere patter, government must function in harmony with the desires as well as the needs of the people.

It now becomes your duty to render a verdict upon the question of his guilt or his innocence and upon the degree of his guilt, if guilty. In doing this you must be guided by the principles of law hearing upon the case that I will now proceed to law here you.

In the determination of all ques-In the determination of all questions of fact, the sole responsibility is with the jury. You are the sole judges of the evidence, of the weight of the evidence, and of the credibility of the witnesses. Any comments that I may make upon the evidence will be made, not for the purpose of controlling you in your view of the facts, but only to aid you in applying the principles of law to the facts as you may find them. You must not consider what I shall say concerning the evidence as being accurate, but you must depend upon your own recollection. You must not only consider the evidence to which I shall refer, but you must consider all of the evidence in the

In this, as in every criminal case, In this, as in every criminal case, the defendant is presumed to be innocent, which presumption continues until he is proved to be guilty.

To support the indictment and to instife, a conviction, the state must

justify a conviction, the state must prove the facts sufficient for that purpose by evidence beyond a rea-sonable doubt; and that burden never sonable doubt; and that burden never shifts from the state. If there be reasonable doubt whether the de-fendant be guilty, he is to be declared not guilty.

EASILY DEFINED.

Reasonable doubt is a term often used, probably pretty well under-stood, but not easily defined. It is not a mere possible doubt, because everything relating to human affairs and depending on moral evidence is open to some possible or imaginary doubt. It is that state of the case which, after the entire comparison and consideration of all of the evidence, leaves the minds of the invision. dence, leaves the minds of the jurors in that condition that they cannot say that they feel an abiding conviction to a moral certainty of the truth of the charge. The evidence must establish the truth of the fact to a moral certainty, a certainty that convinces and directs the un-derstanding and satisfies the reason judgment of those who are to act conscientiously upor

But if, after convassing carefully the evidence, giving the accused the benefit of reasonable doubt, you are led to the conclusion that the defendant is guilty, you should so de-clare by your verdict.

To make out a case of guilt, the state must establish by evidence beyond a reasonable doubt, first, death of Charles A. Lindbergh as a result of a felonious stroke in-flicted on the first day of March. 1932, at the township of East Am-

well in this county.

To support that charge the state has produced evidence to the following effect. The fact of death seems to be proved, and admitted. At the time of his death the child was about 20 months old on the evening of March 1, 1932, the child was prepared for bed by its mother and its nurse, Betty Gow. at the Lindbergh home in East Amwell township in is county.

CHILD The evidence is to the effect that the child was then in good health, a normal child except for a slight cold; that the mother and the nurse se-curely fixed the covering about the child, and about 8 o'clock left the room and closed the window; that between that hour and 10 o'clock the child was removed from the bed by some person and carried away, with the clothing in which it had been put to bed, which clothing has

been described to you.

There is evidence from which you may conclude, if you see fit, that the person who carried away the child entered the nursery or child's bedroom through the southeast window of the nursery room, by means of a ladder placed against the side of the house, under or near the win-dow, and that this occurred shortly after 9 o'clock at night.

You will recall the evidence of colonel Lindbergh to the effect that he was sitting in his living room downstairs, he heard a strange noise about that time, the sound of wood on wood, like the striking of two pieces of wood together, like the boards of a crate falling together off of a stand or chair.

Colonel Lindbergh testified that he could not tell at the time where the sound came from, and at the moment he did not think much about it. Later, at about 10 o'clock, when the

Miss Gow and Mrs. Whateley testi Miss Gow and Mrs. Whateley testi-fied that later, about April 1, 1932, they found the thumbguard, which Miss Gow had securely tied to the wrist of the child's sleeping suit when she put him to bed, that they found his thumbguard in the road leading from the Lindbergh home and on the Lindbergh property, with the knot still untied, from which you may possibly conclude that the sleep-ing suit was stripped off of the child that place.

There is also evidence to the effect that there was a dirty smudge on the bed clothes, and also on the floor of the nursery, leading from the window to the child's crib, and a n letter left on the window sill. the child's dead and decomposed body was found by a colored man in or hard by a shallow grave

man in or hard by a shallow grave, not far from the road, a few miles away, in Mercer county.

Dr. Mitchell, who performed the autopsy, testified that the child died of a fractured skull, the result of external violence, that the fracture extended from a point about an inch and a half posterior to the left, it extended forward probably three or tended forward probably three or four inches, it extended upward to one of the fontanels, it extended backward around the back of the head; in other words, it was a very

xtensive fracture. extensive fracture.

He further testified that, in his opinion, death occurred either instantaneous or within a very few minutes following the actual fractural occurrance. It is the contention of the state that the fracture described by Dr. Mitchell was inflicted upon the child when it was seized and car-ried out of the nursery window down the ladder and when the ladder broke

Now, the ladder has been placed in evidence. Its broken condition when found in the yard has been de-

POINT OF DEATH

The fact that the child's body was found in Mercer county raises a presumption that the death occurred there; but that, of course, is a rebuttal presumption, and may be over-come by circumstantial evidence. In the present case the state contends that the uncontradicted evidence Colonel Lindbergh and Dr. Mitchell and other evidence justifies the rea-sonable inference that the felonious stroke coursed in East Amwell township in Hunterdon county, when the child was seized and carried out of the nursery window and down the ladder by the defendant, and that death was instantaneous; and from the evidence you may conclude, if you see fit, that the child was felon stricken on the first day of March at the township of East Amwell in this county, and died as a result of that

Secondly, the state, in order to jus tify a verdict of guilty, must estab-lish by the evidence, beyond a rea-sonable doubt, that the death was caused by the act of the defendant. The uncontradicted evidence is that the child was left by the mother and the nurse in the nursery, and the window was then closed.

The evidence justifies the infer-

ence, if you see fit to draw it, that the window was maliciously opened and the child seized shortly after 9 o'clock that night. You will, of course, recall the evidence to the effect that almost immediately after it was dis-covered that the child had been taken from its crib in the nursery, there was found the ransom letter, demanding \$50,000, on the window sill, on which was placed a peculiar symbol and peculiar punch holes, and stating that directions would later be given for the delivery of the money. There is also evidence to the effect that a few days later Colonel Lind-bergh received a second letter with like symbols, referring to the orig-inal ransom letter, and reiterating that directions for the delivery of the ransom money would be given Mean. ransom money would be given. Mean-while Colonel Breckinridge, the friend and counsellor of Colonel Lindbergh, had identified himself with the case

in an endeavor to help his friend. CONDON'S PART IN CASE

There is evidence to the effect that a few days before March, 1932. Dr. Condon had inserted an advertise-ment in the Bronx newspaper in effect offering to act as go-between that a few days later Dr. Condon received a letter in effect accepting his offer to act as a go-between and en-closing a letter to Colonel Lindbergh, telling Dr. Condon that after he got the money to put words in the New York American that the money is ready, and the letter to Colonel Lindbergh said Condon may act as gobetween, to give him the money with directions as to the package; how thereafter the baby was to This letter to Colonel Lindbergh.

as I recall the testimony, contained the peculiar symbols of the original ransom letter. The evidence is to the effect that immediately Dr. Condon drove to Hopewell and conferred with Colonel Lindbergh and with Colonel Breckinridge and, with their acquiescence, he inserted the advertisement, "I accept; money is ready."

Dr. Condon testified that shortly thereafter he received a letter addressed to him, and delivered to him. I recall the testimony, contained dressed to him, and delivered to him by a taxicab driver, giving him instructions how to proceed. The taxicab driver restified that he was given that letter by the defendant Hauptmann. Dr. Condon testified that, as

a result of the directions contained in that letter and another letter, he first had, on March 12th, 1932, an interview in Woodlawn cemetery with a man whom he identifies as the defendant, after talking with him for more than an hour. In that in-terview Dr. Condon said that the de-fendant, after having run away from the gate, said, among other things, "It is too dangerous. Might be 20 years or burn. Would I burn if the baby is dead? I am only a go-be-

and finally a letter directing that the money be ready by Saturday night money be ready by Saturday night and to put an advertisement in the newspaper, "Everything O. K.," and that these directions were complied with by him, Condon, with the acquiescence of Colonel Lindbersh and Colonel Breckinridge, the latter of whom had been in close touch with Dr. Condon during practically the whole of the ransom negotiations.

There is testimony to the effect that on this Saturday night. April

that on this Saturday night, April 2, 1932, there was delivered to Dr. Condon's residence a letter containing further instructions, and that as a result thereof on that evening Colonel Lindbergh, who was there waiting, drove Dr. Condon to the entrance to St. Raymond's cemeter;

Condon alighted and contacted with a man, and after some talk and some delay handed him the package containing \$50,000 of ransom money, \$35,000 of which was in gold certificates, the numbers of which bills had been taken.

There is evidence to the effect that after Dr. Condon alighted with the money he was hailed by a man on the other side of the hedge, to whom he finally delivered the ransom money.

money. Colonel Lindbergh testified that the voice that hailed Condon was that of the defendant. Dr. Condon testified that the man to whom he delivered the money was the defendant. This is denied by the defendant, and there is other testimony bearing upon the matter, and so that question becomes one for your determination.

ARGUMENTS AGAINST "JAFSIE." It is argued that Dr. Condon's testimony is inherently improbable and should be in part rejected by you, but you will observe that his testimony is corroborated in large part by several witnesses whose credibility has not been impeached in any manuer whatsoever.

in any manner whatsoever.

Of course, if it is in the minds of the jury a reasonable doubt as to the truth of any testimony, such testi-mony should be rejected but, upon the whole, is there any doubt in your minds as to the reliability of Dr. Condon's testimony?

It is argued that Colonel Lind-bergh could not have identified that voice, and that it is unlikely that the defendant would have talked with Condon. Well, those questions are for the determination of this jury, after having patiently listened to the evidence bearing upon those topics. If you find that the defendant was the man to whom the ransom money was delivered, as a result of the directions in the ransom notes, bearing symbols like those on the original ransom note, the question is perti-nent: Was not the defendant the man who left the ransom note on the window sill of the nursery, and who

took the child from its crib, after opening the closed window? It is argued by defendant's counsel that the kidnaping and murder was done by a gang, and not by the defendant, and that the defendant was in nowise concerned therein. The argument was to the effect that it was done by a gang, with the help or connivance of some one or more servants of the Lindbergh or Morrow

Now do you believe that? Is there any evidence in this case whatsovere to support any such conclusion? A very important question in the case is, did the defendant Hauptmann write the original ransom note found on the window sill, and the other ransom notes which followed? Nu-merous experts testified that the defendant Hauptmann wrote every one of the ransom notes, and Mr. Osborn Sr., said that that conclusion was irresistible, unanswerable and overwhelming. On the other hand, the defendant denies that he wrote them, and a handwriting expert, called by him, so testified. And so the fact becomes one for your determination. The weight of the evidence to prove the genuineness of handwriting is wholly for the jury.

OTHER

As bearing upon the question whether or not the defendant was the man to whom was paid the ran-som money in the cemetery, you will, of course, consider the evidence to the effect that the defendant had written the address and telephone number of Dr. Condon on the door amb of his closet; and if you be lieve that he did. although he now denies it, you may conclude that it throws light upon the question whether or not he was dealing with Dr.

As I have said, the defendant denies that he was the man who was paid the ransom money, and there is other testimony which, if credible and believed by you, supports his state

You will consider, as bearing upor that question, the fact that a record of the serial numbers of the ransom money was retained. Now does it not appear that many of the ransom bills were traced to the possession of the defendant? Does it not appear that many thousands of dollars of ransom bills were found in his ga-rage, hidden in the walls or under the floor, that others were found on his person when he was arrested. and others passed by him from time

You may also consider in this con nection the evidence to the effect that shortly after the delivery of the ransom money the defendant began to purchase stocks in a much larger way and to spend money more freely than he had before.

The defendant says that these ran-som bills, moneys, were left with him by one Fisch, a man now dead. Do you believe that?

you believe that?

He says that he found them in a shoe box which had been reposing on the top shelf of his closet several months after the box had been left with him, and that he then, without talling a sheld had been to be a source. with him, and that he then, without telling anybody, secretly hid them, or most of them, in the garage, where they were found by the police. Do you believe his testimony that the money was left with him in a shee box, and that it rested on the top shelf in his closet for several months? His wife, as I recall it, said that she never saw the box; and I do not recall that any witness excepting the defendant testified that they ever saw the shoe box there.

LADDER MUST BE CONSIDERED

As bearing upon the question whether or not the defendant was the man who took the child and left the ransom letter on the window sill, you should, of course, consider the evidence with respect to the ladder. if you find, as seems likely, that it was used in reaching the nursery. That the ladder was there seems to be unquestioned. If it was not there for the purpose of reaching that nur-sery window, for what purpose was it there? There is evidence from which you may conclude, if you see fit, that the defendant built the ladder, although he denies it. Does not the evidence satisfy you that at least a part of the wood from which the ladder was built came out of the flooring of the attic of the defendant? In this connection you should con sider the marks upon the wood, and give the evidence in respect thereto such weight as you think it entitled to, after a consideration of the credibility of the witnesses who testified respect thereto. The defendant has offered himself

This mode of meeting a charge of crime is commonly called setting up an alibi. It is not looked upon with any disfavor in the law, for, whatever evidence tends to prove that the defendant was elsewhere at the time the crime was committe, at the same time tends to contradict the fact that the crime was committed by the defendant, whereas here, the presence of the defendant is essential to guilt, the defendant is essential to guilt, and if a reasonable doubt of guilt is raised, even by inconclusive evidence on alibi, the defendant is entitled to the benefit of that doubt.

As bearing upon the question As bearing upon the detendant was present at the Lindbergh home on March 1, 1932, you, of course, should consider the testimony of Mr. Hochmuth, along with that of other witnesses. Mr. Hochmuth lives at or

MOTION PICTURE MAGAZINE

"A genuine novelty that almost reaches epic proportions. Thrilling, to say the least."

What is left to describe something that really deserves the words that have been wasted on mediocrity? For example, there is the film "Sequoia" which a delighted public will see starting Friday.

This picture truly deserves special consideration, special adjectives of praise. It is no cheap melodrama, no false description of life as it is not. "Sequoia" is something apart, something wonderful, a picture to enjoy and remember.

For two painstaking years the Metro-Goldwyn-Mayer Studios worked at this ambitious picture. When you see it you will get some idea of why it took so long. Comments from advance previews have been so enthusiastic that to quote them all would require literally all the

space of this newspaper. We will restrict ourselves to Mr. Jim Tully, the well known author. He says: "No picture in years has given me the same emotional quality which I derived from 'Sequoia'. I often get discouraged about films.

'Sequoia' renewed my faith. I congratulate its makers."

Crystal Ball Reveals New Roster Of L'ocal Editors and Writers

By Sally Forth.

THAT old standby, the crystal bail, reveals many interesting future happenings. Gazing into its depths today, Sally sees her successors in the fourth estate, namely, the editors and writers of the future. Before me is the current issue of "School Days," the monthly publication of the Lovett school, ably edited and publised by the students, with Margaret Hodgson as editorial head, assisted by Stephen Ives, Sally Hall, Harriett McKenna and Betty Fitts. The current issue is gotten up in up-to-date newspaper style. The news of the school in regular columns is placed side by side with the ads from leading business concerns, reflecting the executive ability of

Sanchez Gottheimer, the young business manager.

Coverage and detailed description of activites of the school are given in the January issue of "School Days" by such youthful re-

Martin, Harriett McKenna, Hollis Rawson, Stephen Ives Jr., Richard Bush-Brown, Betty Fitts, Donald McClean, Frances Arnold Richardson, Grace Ison, Arthur Martin and Julia Wellborn.

In order that students may carry editorial responsibility on their youthful shoulders, editors for School Days are elected for two-month terms. Sarah Cates will assume the editorial reins for the next issue, and will be assisted by Hollis Rawson, Lucy Kiser and Mary Louise Hastings. Sanchez Gottheimer was reappointed business manager.

Future editors and writers don't share all the spotlight, for there are banker presidents in the making at the school. The school bank is operated on the best banking plans and each student "depositor" has his own account and writes his own checks for purchase of books, pads and

THE R. O. T. C. unit cadets 1 at the University of Georgia have conferred the honor of leading the military ball upon Callender Weltner, of Atlanta. The ball takes place on February 22 in Athens, and Jasper N. Dor-sey III, of Marietta, will lead the grand march with the fair Miss

The annual military ball ranks as an outstanding social function, and the selection of the feminine leader is always considered a great coup for that particular girl.

The photograph was used in connection with the annual benefit bridge to be given by Marian's alma mater, Hollins College, at the Biltmore in New York next Saturday. It is not surprising that Marian was chosen as one of the committee chairmen, for she has always stood ready to lend

Hearts Are Trumps on Valentine Day

Sentiment will hold sway in Atlanta today when heart-bedecked boxes of candy and flowers, inspired by the gallantry of swains, go forth to ask pretty maids "Be My Valentine." Miss Margaret Preacher, pictured above, inspired the idea for the valentine motif of 1935. She is the lovely titian-haired daughter of Mr. and Mrs. Lloyd Preacher, and is a member of the senior class at Washington Seminary. Photograph by Kenneth Rogers, staff photographer.

Old Doc Daly was leaning out of his gym window smiling

The Irish, the Lord rest them, are about to come back again. Which explains why the Irish are standing at the beer bars in

our town buying for their neighbors.

It has been a sad period, this one of the past, for the boys from the county of Mayo and from the Connemara mountains. The men of Cork and all the Irish counties have been saddened no little by the athletic history of the past decade.

Time was when every broth of a lad who was in the ring without an Irish name took one and fought under it. The Irish were leading the wurrrld, so they were. But times changed. Italy and Germany and all the little nations of Yugoslavia and the Czechs began to win victories

began to lose games.

But the Irish are smiling again. "Did you hear," asked old Doc Daly, "that there's a heavyweight in New York who has come to lift the heavyweight title and his name is Jack Doyle? It's his name, and a health be on his house. His name ain't Carnera or Lasky or nothing like that. It's Doyle.

"And I have heard," went on the Doc, smiling at the rain drops, "that there is a rassler come from the River Shannon section for to lift the heavyweight rassling title. His name ain't Poopoodoolus or it ain't Zhyszko or it ain't Zaharias.

"You know his name? It's Danny O'Mahoney,"

says old Doc Daly, speaking with reverence. "Ain't the day a delight, though?"

I hadn't thought of it, but he was right. The Notre Dame boys have an Irish captain for next year and Elmer Layden brought them far along the path that leads back to the rim. Things are looking up for the Irish. It 'tis a grand day, after all.

THIS DANNY O'MAHONEY.

I found Mr. Henry Weber busy with his plans for bringing "Theesa Jeem" Londos to our town next week for a rassle at the auditorium. This news had so pleased Mr. George Hanjaras that he was thinking of having free coffee for one and all when the pride of Hellas comes to town.

But I was asking after Danny O'Mahoney. It seemed to me I recalled a lad by that name had tossed Ed (Strangler) Lewis in a London match some months ago.

"That's the lad," said Henry Weber. "He's in this country now and he's had three or four matches. He pinned Rudy Dusek in Boston a few days ago and left Rudy with four of his lower teeth sticking through his upper lip. I'm trying to land him for our town," said Mr. Weber. "What sort of a wrestler is he?" I asked.

"Two years in London," says Mr. Weber, "and he has a new hold. 'Tis called 'the whip.

"I've ridden in them at carnivals," says I.

"Not that kind," says Mr. Weber. "This is new. 'Tis a combination of the arm pull and a flying mare. He grabs his opponent's right wrist with both hands and with the same motion pulls him forward. This," says Mr. Weber, "is one of Marshall's holds, but he blocks them with his body. But not this Irishman. He pulls them by and then whirls to his original position and pulls them over his shoulder. He gets more leverage. He literally whirls the man over with that one arm. The result is like tying an iron ball to a string and whirling it over and onto the ground. You get the idea?"

got it. The Irish are coming back, marching from the peat bogs and the Shannon fogs, to raise up once more the Green Banner with the harp that once through Tara's halls the soul of music shed.

MORE ABOUT LONDOS.

Mr. Weber, emulating the Ancient Mariner, clutched me by the lapel and said: "You didn't see this Dorve Roche tear into Za-

harias. Let me tell you, he'll tear into Londos the same way. He's the most fearless wrestler I've had here in the past six months, and you may take my word for that. He may not beat this Londos, no one has in four years, but you want to be there and see him tear in. Man, I wouldn't care to be Jim Londos that night. He'll earn his share of the gate. And you may lay to that." "You are speaking with an Irish brogue," says I; "how

"'Tis you," said Mr. Weber, the old Viennese, "with your blarney about this Danny O'Mahoney and Jack Dovle."

At any rate, Mr. Weber has "Theesa Jeem" Londos headlining his card for next Tuesday night at the town hall.

ANENT THOSE RACES.

There will be no hoss races in our town, I suppose. But I would like to see them run, holding them not as bad an influence as the policy game or several others we countenance with calm

We are a metropolitan city and a program of three or four weeks of racing, governed by a state commission and laws, surely would do us no harm.

There are, to be sure, many touts and hangers-on, just as there are parasites in the boxing game and others. But they also bring many nice people to town, and it is possible to associate with them and not with all the petty larceny crowd which already is here and which might attach itself to the fringe Pasaden of the game.

It is a sad commentary on us that the racing of horses should bring in an undesirable element. They are such grand sights, the horses, breaking from the barrier and hitting the turn and moving up in the back stretch and then turning into the home stretch with the crowd roaring and the colors flying along on the backs of those magnificent animals.

The doping and most of the touts and parasites got into the game during prohibition, when only the millionaires and the successful sellers of booze could afford them.

And I'd like to see the game given a chance in these days of the New Deal, with decent laws and regulations. It is possible to find something mean and little about most anything, but I'd rather look at the other side—which racing surely has to offer.

I like to see them run. I've placed few bets on them because just seeing them run is enough for me. But, at any rate, I'd like to see our town have a chance to express itself.

OH, IS THAT ALL!

It was the night the Macon fell into the sea with 83 men aboard. And for a while no one knew their fate. It was at this time that the telephone rang and a lady asked:

What is the Hauptmann verdict?"

She was told the case didn't go to the jury until the next day, which was yesterday. 'There's an extra out here," she said, "and I thought it

might be the verdict.' "No, the dirigible Macon fell with 83 men aboard," she was told.

"Oh, is that all it was?" she said. "I thought maybe it was the verdict."

Well aware that it's quality, not quantity, that counts, Patrick is nevertheless jubilant over the fact that there appears to be three sets of backfield men available for next year. Cardinals' 'Trap-Door' Shows 'Em Way Home

Jim Lindsey Tells How Branch Rickey Separates the "Sheep" From the "Goats."

By Jimmy Jones.

Jim Lindsey, the Cracker pitcher, who was in the St. Louis Cardinal baseball chain long enough to appreciate being the property of an independent ball club, is one of the most amusing conversationalists in the Cunningham and Bill Bonthron, of Delivation the control of the state of the control of the contr

Jim, who was over in Earl Mann's room at the St. Charles in New Orleans Sunday to sign his contract, was telling a story about Branch Rickey, boss of the far-flung Cardinal enterprises and whom he (Jim) swears is the smartest man in the world, Roosevelt's "brain trust" and

Huey Long not excepted. Lindsey, who boasts a quaint and excellent sense of humor and a slow drawl that would be a knockout up east, had been discussing the Cardinals' system of signing young sandlot players and developing them

through their intricate graduate system. "Did you ever hear how Rickey tests a young ball player out?"

Well, it's a system just like the au-

After this bizarre timing method, Lindsey explains, Rickey then has the players who are not eliminated on their speed engage in a wholesale throwing contest. If their arms measure up to the standard of their legs, they are usually kept and sent to various of the Cerde' multifudinus Class of the Cards' multitudinous Class farms.

Rickey, incidentally, not only con-trols a lot of these D clubs, but whole leagues of them. That's why the Car-dinal supply of young baseball talent JUDGE AROUSED.

Recently, Judge Kenesaw Mountain Landis sought to curb Rickey, Larry McPhail and other aggressive chainstore manipulators by passing a rule, first that a major league club could not sign a sandlotter directly, and more recently, a rule which prohibits wholesale exchanging of players and working agreements with clubs in the

GIANT 'SHOOTER' HOPING TO BEAT HIS OWN RECORD

Predicts Bernie Moore Will Make Good as L. S. U. Coach.

By Jimmy Jones.

In the list of international track records, one finds the name of Jack Torrance, U. S. A., on the end of the shotput mark, which is 57 feet 1 inch.
On the train coming up from New Orleans yesterday Big Jack, who weighs a mere 305 pounds now—all muscle—was a passenger along with muscle—was a passenger, along with Earl Mann, of the Crackers, and the

Torrance was en route to New York, where he will participate in the indoor A. A. U. meet and seek to beat the indoor shoot record, which is 52 feet and a fraction, now held by Leo

A big, amiable giant, nothing less, Torrance discussed his future as an amateur athlete, also the possibilities of extending the shotput record to 60 feet, about which much has been writ-ten, but which is still more fabulous than a fact, even in the wildest realm

HOPES FOR 60 FEET.

But big Torrance thinks that some day he might heave the shot 60 feet. "That's quite a distance, and I've d to work mighty hard to get where am with the ball, but I belive that if I set myself to trying for the distance I might eventually get it. After all, it's only about three feet farther than I've been throwing it,"

Mind you, Torrance's present record already has been termed a "perfect performance" by Brutus Hamilton; the famous track coach at California and others. Hamilton listed it as the ultimate limit of human endeavor. Torrance also dropped a hint about his own plans for a career. They are decidedly amateur in nature at pres-

A little about the L. S. U. football team also found its way into the conversation. Torrance, who played a strong right fackle under Captain Biff Jones, was greatly broken up, as were his teammates, over the captain's explosive severance with Huey Long and the team.

ROUGH WORK

"It was too bad." Jack stated. "I think if Biff hadn't been excited and worried over the game, he wouldn't have paid any attention to Huey. It was just unfortunate for Biff was a great coach and a great fellow and all the kids loved him."

NEW YORK, Feb. 13.—(P)—Firmness in scattered specialties provided the principal feature in curb exchange dealings today. Quotation changes in the general list were narrow, with fractional gains predominating. Activity continued restricted.

Advances of around a point were recorded by Greyhound Corporation, Parke-Davis, Parker Rust-Proof, Allied Mills and Consolidated Gas of Baltimore. Pioneer Gold, American Cyanamid "B" and International Petroleum eased a shade, while Hiram Walker, Swift & Co., Wright-Hargreaves, Pittsburgh Plate Glass and Sherwin-Williams were slightly improved.

Transfers approximated 120,000 shares compared with 126,000 on Monday. 5 + 1 42 + 1 42 + 1 35 + 1 10 - 1 41 - 1 41 - 1 42 - 1 26 - 1 11 - 1 6 - 1 6 - 1 COTTONSEED CRUSHED

NEW YORK, Feb. 13 .- (A)-Trading in corporate bonds was more active today but price movements were a trifle irregular, especially in lower priced issues.

Standard investment bonds were in broader demand than at any time since the uncertainty surrounding the gold Sales (clause cases before the supreme court began to act as a restraining influence on large investors, and while advances were generally small they were well distributed.

were well distributed.

Among the more active issues selling fractionally higher were American Smelting 5s at 105, American Telephone 4s at 109, Chesapeake & Ohio 4 1-2s at 117 1-4, Pennsylvania 4 1-2s at 107 1-2, and Union Pacific 4s at 101 3-4. The Associated Press average of 10 low-yield bonds advanced 01 of a point to a new 1924-25 high .01 of a point to a new 1934-35 high at 109.6.

at 109.6.

The trend was slightly irregular in lower-priced issues, although gains outnumbered losses. Utility Power & Light 5s were heavily dealt in and closed at 3 points higher at 28 3-4, while the 5 1-2s were 1 3-4 higher at 32 3-4. Other gainers included obligations of Kelly Springfield Tire, Paramount Publix, and Warren Bros. The Associated Press averages for 20 rails, 10 utilities and 10 industrials were unchanged to .01 of a point higher.

Net losses of around a point were hown by Baltimore & Ohio 5s at 68, and New Orleans Public Service 5s at 65 3-4.

at 65 3-4.

There was little activity in government bonds with minor losses predominating in Treasury issues, Liberties and indirect obligations.

Foreign loans reflected the nervousness in leading gold currencies, German 5 1-2s dropped 1 1-4 points to 36 1-4 and declines were registered by most of the South and Central American issues as well as fewer for American issues as well as for a few

Friendly Counsel By CAROLINE CHATFIELD Problems of general interest submit-ted by readers will be discussed in this column. Correspondence invited. Your name held in confidence. Write Miss Chatfield, care The Atlanta Constitution.

DEAR MISS CHATFIELD:

I have been trying to find out just what my boy friend felt for me but only two months ago did I get up the nerve to ask him. Here is what he haid: "I like you more than any ether girl. I enjoy being with you more than I enjoy anything but I don't love you. I am not the marrying if ind and you ought to know it." Now Miss Chaffield, this cut me to the quick because I have given up all the other boys, and as most girls do I have built up my dreams about him. It took some comfort from the fact that he said he liked me more than any other girl. He is much sweeter and more understanding than he used to be. Should I let him know that I care for him or should I drop him?

DISTURBED.

ANSWER:

Why not keep him as a friend?
He has been fair and honest with you. These are fine traits in friendship. He has confessed that he enjoys anything else. The is a fine compliment. Many a boy has a started out thinking he was not the marrying kind and waked upon the companionship of some girl. When he gets to this stage he changes his mind.

However a girl is very foolish to pin her faith in marriage to a man who tells her he deependent upon the raith in marriage to a man who tells her he deependent upon the raith in marriage to a man who tells her he deependent upon the companionship of some girl. When he gets to this stage he changes his mind.

However a girl is very foolish to pin her faith in marriage to a man who tells her he deependent and he he deependent and he he gets to this stage he changes his mind.

Call in the former friends, feign interest in them if you don't actually feel it. When you have refused to let your time be monopolized by one, your thoughts will cease to center on him. In spite of yourself you will be diverted. You may not be able to conceal the fact that you care for the understanding steady, but you can refrain from putting it into words. When you acknowledge that you love a man who says he doesn't love you, you put him in an embarrassing position and there are mighty few boys or men that will remain in an embarrassing position when they can get out of it. WHAT HAS GONE BEFORE:

After graduating from the Reedville (Va.)
High school, Sherry Ross lives with her family until the local bank fails and her visiting Reedville had taught her to dance and told Sherry she thought she should be able to get on the stage. Sherry goes to New York, gets a job with the Follies and told Sherry she thought she should be able to get on the stage. Sherry goes to New York, gets a job with the Follies and the Follie

When they came back and she started to get supper, she felt suddenly ill. Her whole body ached. It took all her strength to see the evening meal through and spend a quiet evening with Carl in the parlor. When he said good night, he said also, "You're pale, Sherry, You've probably been doing too much."

In the morning she had a high temperature. Her eyes were feverish, her face flaming, I was the beginning, though she did not know it then, of two weeks in bed under the doctor's daily care.

"I would have to go and get sick with you here," she told Carl, who patiently sat by her bed.

Carl stayed as long as he thought was proper and left reluctantly, having won the respect and admiration of the whole family. He merely held Sherry's hand and looked down on her when he left and she knew, though he never talked intimately with her, that he loved her more than ever. Sherry, lying in the great bed star

"I'll be all right."

"Sherry, from what you've told me about Tony, do you think it's worth the trouble? Not many women have been able to reform men. If you can't reform him now, keep him away from his bad habits when he's very much in love with you, do you think he'll stay away when you're married to him and he's sure of you?"

Sherry shook her dark head.

"All we Rosses," she said, "have a complex for helping people. You've done it all your life. This hasn't anything to do with loving Tony. He's a

INSTALLMENT XIV.

That afternoon she went riding with Carl in the low black car and was amused at the townpeople who turned twice to look at her. She and Carl talked of many things and while Tony was foremost in her mind, she did not speak of him.

"I feel that I know you much better now," Carl said, looking at her as she sat in the corner of the car, the heavy robe covering her, the wind stirring her hair on her neek.

When they came back and she started to get supper, she felt suddenly ill. Her whole body ached. It same, "You mean . . he isn't with the orange of the car, who has carried to get supper, she felt suddenly ill. Her whole body ached. It same," "I depend Easter vacation with me." "And Carl?"

"I wish I could.

I believe he understands that."

"If my sending for you has caused anything, she was withing to happen between you any Tony, I shall never forgive myself."

Sherry trued not to believe the worst. The first day Sherry came downstairs she called Tony's office. "I'd like to speak to Mr. Arnold." she said.

"I'll tell him you've gone back."

When Sherry boarded the bus, Anna Ross turned and walked slowly back. Why was it, she thought, that fine people like Sherry loved men like Tony Aronld?

When they were at dinner that night, Carl called up from Maryland.

of an arch. It was once supposed that the keystone was subjected to a greater strain than the other stones, but engineers have pointed out that there is less strain and force on this stone than any of the others. The bottom stones bear the greatest force, it is said. Architects often make an artistic feature of the keystone, and this may be another reason why it is often believed to be more important than the other stones.

Many kinds of germs are not harmful to human beings; but others are looked upon as the cause of a host of diseases—including sore throat, scar-let fever, typhoid fever and cholera.

Dangerous germs are spread by cer-tain kinds of mosquitoes, by houseflies and by fleas. Impure water or milk may carry the germs of typhoid fever. There was a time when doctors had little idea of the cause of disease. That was before the day of the microscope. A Dutchman, Anton var uwenhoek, is given credit for

By learning to make and use weapons men have become masters over tittle animals" by looking through a lease to see bacteria through a microscope. Two hundred and fifty-two years ago he wrote that he had found "little animals" by looking through a lease.

The modern view is that most, if the modern view is the modern view is that most, if the modern view is the mod

deal in shape, and some are smaller than others.

Louis Pasteur, the famous French chemist who lived during the past century, did much to bring about a war against germs. He found a way to cut down the danger of hydroprobia, and he showed how to treat milk so that it would be more safe to drink. French school children have voted Pasteur the greatest man in their country's history, greater than any king, general or president. When you note the mark "Pasteurized," on the side or cap of a milk bottle, remember that the word came from the name of Pasteur. name of Pasteur.

Joseph Lister, English surgeon and university professor, was another important figure during the past century. He declared that pains should be taken to keep germs from getting into wounds during and after an operation. He made use of carbolic sacid to kill germs on instruments and dressings and to wash the wounds. He also used a carbolic spray in an attempt. used a carbolic spray in an attempt to purify the air of the operating

Carbolic acid still has use as a "germ-killer," but modern surgeons usually employ alcohol, iodine or other antiseptics.

About your credit rating.

CREDIT ratings are divided into four groups. Prompt, Medium, Slow and Require Cash.

WHICH group are you in? This question is hard to answer because you are rated by a bureau that secures credit information from stores and firms who have had business adalings with you and this ch. 33.3.
